

RubyConf Taiwan

2015

Sponsorship Brochure

What is RubyConf Taiwan

RubyConf Taiwan (<http://rubyconf.tw>) is the only and biggest Ruby international conference held by Ruby Taiwan community. This is the 5th RubyConf Taiwan, where world renowned Ruby developers are invited to share their experiences on this Island.

What's Cool about RubyConf Taiwan

- **The most internationalized programming and technology conference**

Since its debut, RubyConf Taiwan has gained participation from many foreign speakers and attendees. Last year 65 participants (among them 20 speakers) flew in from overseas. The attention RubyConf Taiwan attracted from abroad is not only reached high, but the Conference itself has also broken the record of being the first to offer Chinese to English simultaneous interpretation service to foreign audience among programming events held in Taiwan.

- **Various peripheral activities**

Besides the conference, in order to enhance more interaction among participants, RubyConf Taiwan has also held Official Party twice in a row (nearly half of the participants joined this event), Last year, we've also held a Special Panel Discussion featuring female programming where infamous local and overseas speakers talked about the history of females in programming, as well

as the learning trend and future market of this group.

Sponsors over the Years

RubyConf Taiwan 2015 Sponsorship

RubyConf Taiwan 2015 will be held at the Taiwan Academia Sinica on Sept 11th (Fri) and 12th (Sat) this year. Invitation for topics and speeches has just gone out. Triple tracked with variety for both junior and senior developers, RubyConf Taiwan will have 40 sessions all together, where more than 305 IT technical staff, system administrators and program developers are estimated to participate in this grand event.

If you wish to sponsor RubyConf 2015 or should you have any query, please contact contact@rubyconf.tw

About Ruby Taiwan Community

Ruby Taiwan community was established in 2008, under the goal of promoting Ruby learning and applications, enhancing the depth and width of technical developers, as well as ameliorating experience sharing amongst Ruby developers. In order to promote gender equality in the community, starting from September 2013, Rails Girls Taipei workshop was initiated by the community members and since then more than 200 females have been lead into the world of Ruby and Rails through 5 workshops.

More about Ruby Taiwan Community

- Established in 2008
- Founder: Wen-Tien Chang
- Main organizers: Mu-Fan Teng/ Chen-Long Kao
- Activities held by Ruby Taiwan Community:
 1. RubyConf Taiwan
 2. Ruby Tuesday (lectures, has held 33 times)
 3. Taipei.rb (lectures)
 4. Rails Girls Taipei (by far the biggest female programming event in Taiwan, 5th anniversary)

5. Rails Girls Weekly (female programming workshops during weekdays, has held for more than 40 sessions)
